

How to release [Xtool PS90](#) memory space

There are 2 ways to solve it:

First method:

Enter from this path: Explorer

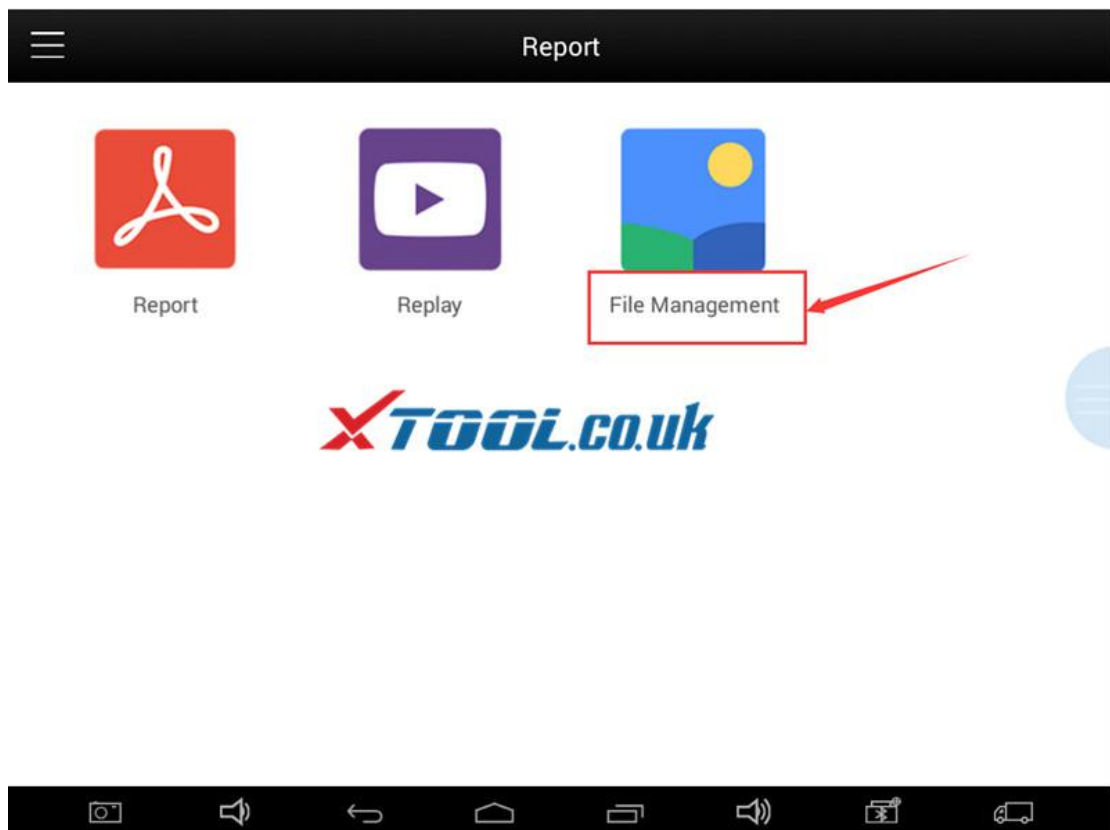

--NAND FLASH--XTOOL—Vehicles, delete the old version of the software to free up space

Second method:

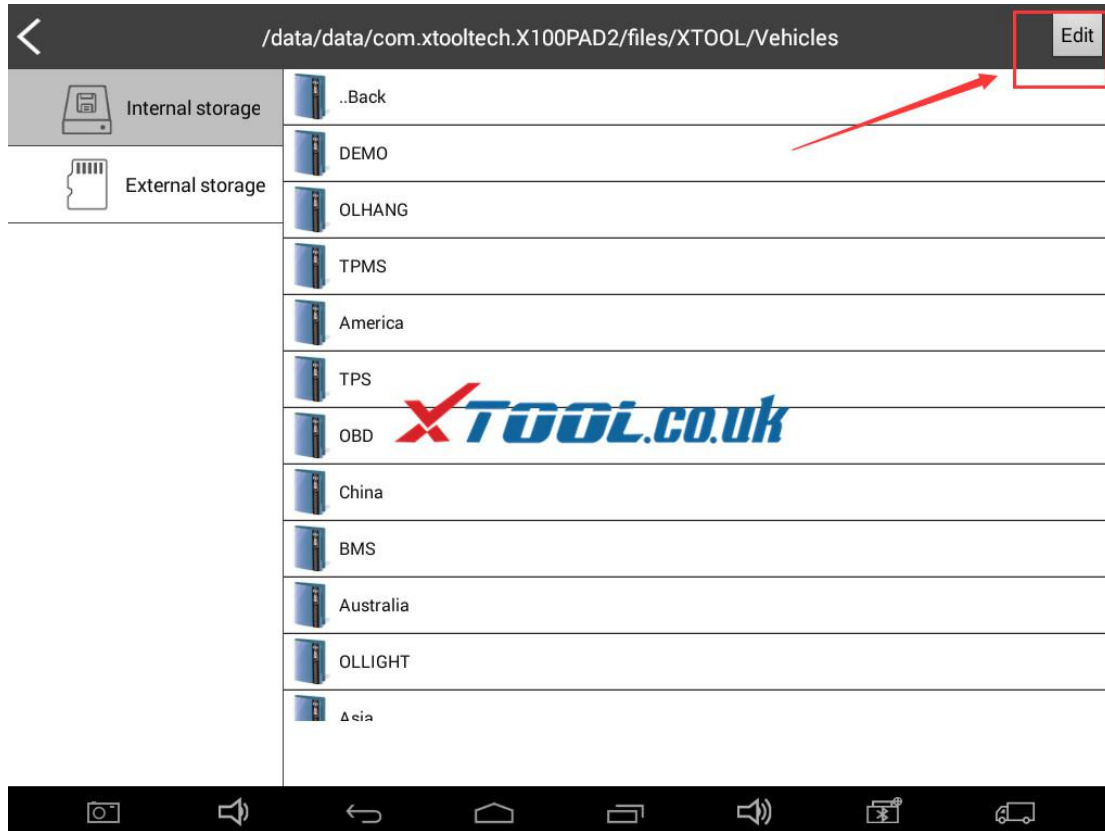

Step1、 Open the app and find the Report

Step2、 Find the "File Management" menu

Step3、 Select the "Edit" , click on the unneeded car

Step4、 Remove redundant models to retain storage space
